

FleetCor Reports First Quarter 2011 Financial Results

May 12, 2011

NORCROSS, Ga., May 12, 2011 (BUSINESS WIRE) -- FleetCor Technologies, Inc. (NYSE: FLT), a leading independent global provider of specialized payment products and services to businesses, commercial fleets, major oil companies, petroleum marketers and government fleets, today reported financial results for its first quarter ended March 31, 2011.

"We are very pleased with our first quarter results. In the first quarter we reported adjusted net income growth of 20%, on a pro forma basis, which is in line with our previously announced organic growth earnings target " said Ron Clarke, chairman, president and chief executive officer, FleetCor Technologies, Inc. "Our strategy continues to be growing the business through organic measures, signing new partnership agreements, such as the recently announced major oil company agreement, and pursuing acquisitions, particularly in emerging markets."

Financial results for the first quarter of 2011:

GAAP Results

- Total revenues, net in the first quarter of 2011 increased 6.5% to \$111.0 million compared to \$104.2 million in the first quarter of 2010
- Net income in the first quarter of 2011 increased 18.2% to \$32.3 million, or \$0.39 per diluted share, compared to \$27.3 million, or \$0.34 per diluted share in the first quarter of 2010

Non GAAP Results

- Adjusted revenues (revenues, net less merchant commissions) in the first quarter of 2011 increased 10.9% to \$102.7 million compared to \$92.6 million in the first quarter of 2010
- Adjusted net income in the first quarter of 2011 increased 20% to \$39.3 million, or \$0.47 per diluted share, compared to \$32.7 million, or \$0.39 per diluted share in the first quarter of 2010 on a pro forma basis (to reflect the impact of public company expenses, non-cash compensation expenses, decrease in the effective tax rate, effective during the first quarter of 2011, and fully diluted shares effective in the first quarter of 2011, as if these changes had occurred during the first quarter of 2010)

Reconciliations of GAAP results to non GAAP results and pro forma adjustments are provided in exhibit 1 attached. Additional supplemental data is provided in exhibit 2.

2011 Outlook

FleetCor Technologies, Inc. is re-affirming its financial guidance for 2011 as follows:

- Revenue between \$460 million to \$480 million
- Adjusted Net Income between \$155 million to \$165 million
- Adjusted Net income per diluted share between \$1.83 to \$1.95

"We remain confident about our full year guidance, given the generally positive economic environment , and the progress on our organic growth initiatives," said Mr. Clarke.

The Company's full year 2011 guidance includes the following:

- Approximately \$2 million of incremental cash operating costs for public company expenses
- A 1.9% increase in our effective tax rate from 28.7% in 2010 to 30.6% in 2011
- An increase of 3.9 million diluted shares outstanding from 80.8 million shares in 2010 to 84.7 million shares in 2011

If these incremental costs and shares had been incurred in 2010, the Company's full year 2010 Adjusted Net Income would have been \$138.3 million, or \$1.63 per diluted share.

The Company's full year 2011 guidance is presented on a constant currency basis and assumes similar macroeconomic and business conditions exist in 2011 as did in 2010. This guidance does not reflect the impact of any future acquisitions or material new partnership agreements.

About Non GAAP Financial Measures

Adjusted revenues are calculated as revenues less merchant commissions. Adjusted net income is calculated as net income, adjusted to eliminate (a) stock-based compensation expense related to share-based compensation awards, (b) amortization of deferred financing costs and intangible assets and (c) amortization of the premium recognized on the purchase of receivables. The Company uses adjusted revenues as a basis to evaluate the company's revenues net of the commissions that are paid to merchants to participate in our card programs. The commissions paid to merchants can vary when market spreads fluctuate in much the same way as revenues are impacted when market spreads fluctuate. The company believes this is a more effective way to evaluate the company's revenue performance. We prepare adjusted net income to eliminate the effect of items that we do not consider indicative of our core operating performance. Adjusted revenues, and adjusted net income are supplemental measures of operating performance that do not represent and should not be considered as an alternative to net income or cash flow from operations, as determined by U.S. generally accepted accounting principles, or U.S. GAAP, and our calculation thereof may not be comparable to that reported by other companies. We believe it is useful to exclude stock-based compensation expense from adjusted net income because non-cash equity grants made at a certain price and point in time do not necessarily reflect how our business is performing at any particular time and stock-based compensation expense is not a key measure of our core operating performance. We also believe that amortization expenses can vary substantially from company to company and from period to period depending upon their financing and accounting methods, the fair value and average expected life of their acquired intangible assets, their capital structures and the method by which their assets were acquired; therefore, we have excluded amortization expense from our adjusted net income.

Management uses adjusted revenues, and adjusted net income:

- as measurements of operating performance because they assist us in comparing our operating performance on a consistent basis;
- for planning purposes, including the preparation of our internal annual operating budget;
- to allocate resources to enhance the financial performance of our business; and
- to evaluate the performance and effectiveness of our operational strategies.

We believe adjusted revenues, and adjusted net income is used by investors as supplemental measures to evaluate the overall operating performance of companies in our industry. By providing these non GAAP financial measures, together with reconciliations, we believe we are enhancing investors' understanding of our business and our results of operations, as well as assisting investors in evaluating how well we are executing strategic initiatives.

¹ Q1 2011 changes include approximately \$0.3 million in incremental cash operating costs for public company expenses, \$3.3 million of non-cash compensation expenses associated with our stock plan, and a 3.2% decrease in our effective tax rate from 34.6% at March 31, 2010 to 31.4% at March 31, 2011. Additionally, 2011 reflects an increase of 2.9 million diluted shares outstanding, from 80.5 million at March 31, 2010 to 83.4 million at March 31, 2011.

² 2011 changes include approximately \$2.0 million in incremental cash operating costs for public company expenses, \$12.0 million of non-cash compensation expenses associated with our stock plan, and a 1.9% increase in our effective tax rate from 28.7% in 2010 to 30.6% in 2011. Additionally, 2011 reflects an increase of 3.9 million diluted shares outstanding, from 80.8 million in 2010 to 84.7 million in 2011.

¹Calculation of revenue per transaction for our International segment and on a consolidated basis for the quarter ended March 31, 2010 excludes the impact of a non-renewed partner contract in Europe, inherited from an acquisition, which we chose not to renew. This non-renewed contract contributed approximately 1.6 million transactions and \$0.3 million in revenues, net to our International segment in the quarter ended March 31, 2010. This contract had a high number of transactions and very little revenue and had a \$0.40 negative impact on our International segment revenue per transaction in the quarter ended March 31, 2010. We believe that excluding the impact of this contract is a more effective measure for evaluating the Company's revenue performance of its continuing business. Revenues, net, excluding the impact of a non-renewed partner contract in Europe for our International segment and on a consolidated basis are supplemental non-GAAP financial measures of performance.

²Adjusted revenues is a non-gaap financial measure defined as revenues, net less merchant commissions. The Company believes this measure is a more effective way to evaluate the Company's revenue performance. Refer to Exhibit 1 for a reconciliation of revenues, net to adjusted revenues.
